## Changes

- ▶ Kansas' score increased from 65 points to 69 points.
- ▶ Its score increased because of clarification about the policies for Component #19 (Equitable Access to Capital Funding and Facilities).
- ▶ Its ranking went from No. 43 (out of 44) to No. 44 (out of 45).

## Recommendations

- ▶ While Kansas' law does not cap public charter school growth, it allows only district authorizers and provides little autonomy, insufficient accountability, and inequitable funding to charter schools.
- ▶ Kansas' law needs improvement across the board. Potential starting points include expanding authorizing options, beefing up the law in relation to the model law's four quality-control components (Components #6 through #9), increasing operational autonomy, ensuring equitable operational funding and equitable access to capital funding and facilities, ensuring transparency regarding educational service providers, and strengthening accountability for full-time virtual charter schools.
