Changes

- ▶ New Jersey's score remained at 131 points.
- ▶ Its ranking moved from No. 33 (out of 44) to No. 34 (out of 45).

Recommendations

- ▶ New Jersey's law does not contain caps on public charter school growth, includes a statewide authorizing entity, and provides a fair amount of accountability, but it provides insufficient autonomy and inequitable funding to charter schools.
- ▶ Potential areas for improvement include increasing operational autonomy and ensuring equitable operational funding and equitable access to capital funding and facilities.

6 | Since New Jersey does not allow full-time virtual charter schools, the highest score possible is 228 for the remaining 20 components. However, we converted this score to one that is comparable to the states that allow full-time virtual charter schools. New Jersey received 124 out of the 228 points available for the remaining 20 components, or 54 percent. We then multiplied the total points possible for all 21 components (240) by 54 percent to get a score comparable to the other states (131).
